

(ANNEX II – Bottleneck Fiche)

FREIGHT TRANSPORT LOGISTICS BOTTLENECKS EXERCISE

Fiche submitted for consideration by: SÅ, Swedish Association of Road Haulage Companies

On: 2007-01-31

Description of the bottleneck:

The road infrastructure around Hamburg, Germany (motorways A1 and A7) as well as in and around the Ruhr area does not have enough capacity resulting in long queues and long waiting times.

Hampering effects of the bottleneck:

Long queues result not only in long transport times and higher transport costs but also in negative environmental impact.

Measures towards a solution (if available):

Development of existing and new infrastructure.

Parties needed to be involved in the solution:

The German Government.

Any available best practice:
